

EBERHARD FABER

FIMO[®]

CLASSIC

It's up to you to choose the colours!

Are you a real expert? Then there is interesting news for you: Good old FIMO has turned FIMO CLASSIC. Its formula has remained unchanged: still the best quality for filigree modelling. All the colours can be combined with FIMO SOFT. Well, what's new then? We have optimised the colours in terms of blending. Which gives you the choice of a vast palette of intermediate hues. There are 24 standard colours which blend into 100 different shades as shown in our blending table on the reverse. Just choose your favourite.

FIMO-CLASSIC 63g - Block

Front: Two segments

Reverse: Eight segments

Each FIMO CLASSIC block consists of eight segments, helping you to mix precise colours.

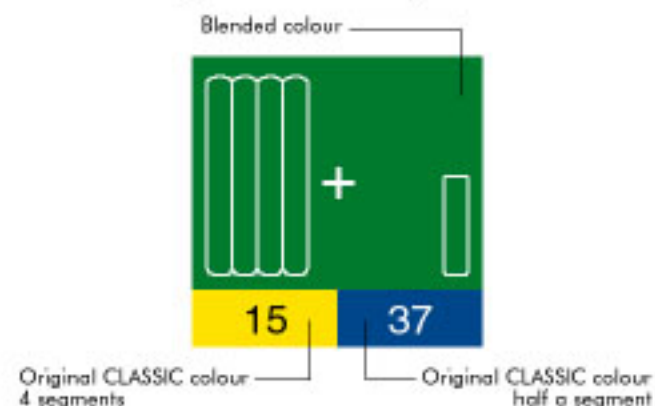

~30 min.

130 °C/265 °F

Hardened in the oven, your works will last - almost for eternity.

Blending - this is how you do it!

Please turn over to find more than 100 colour blends.
